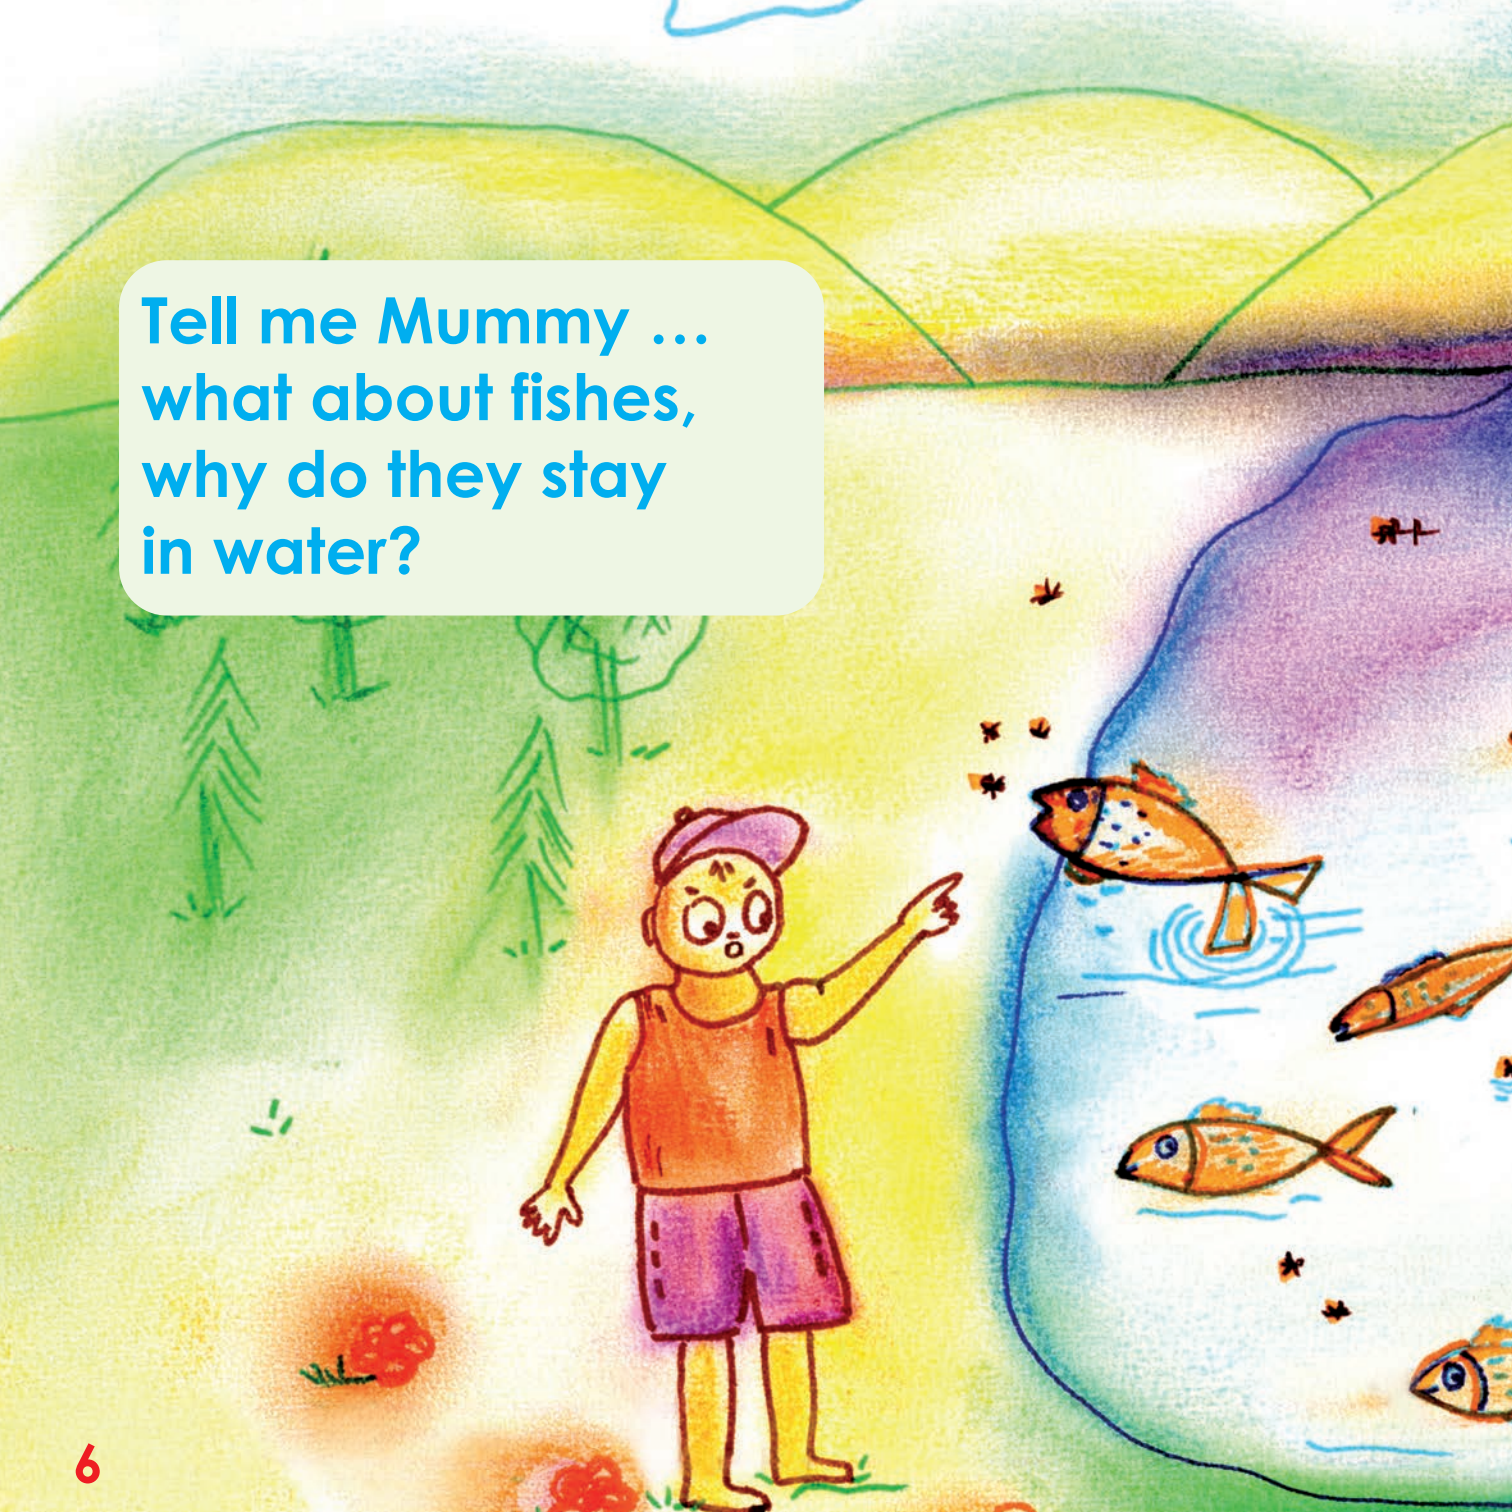
Tell me Mummy ... why do clouds cross the sky?

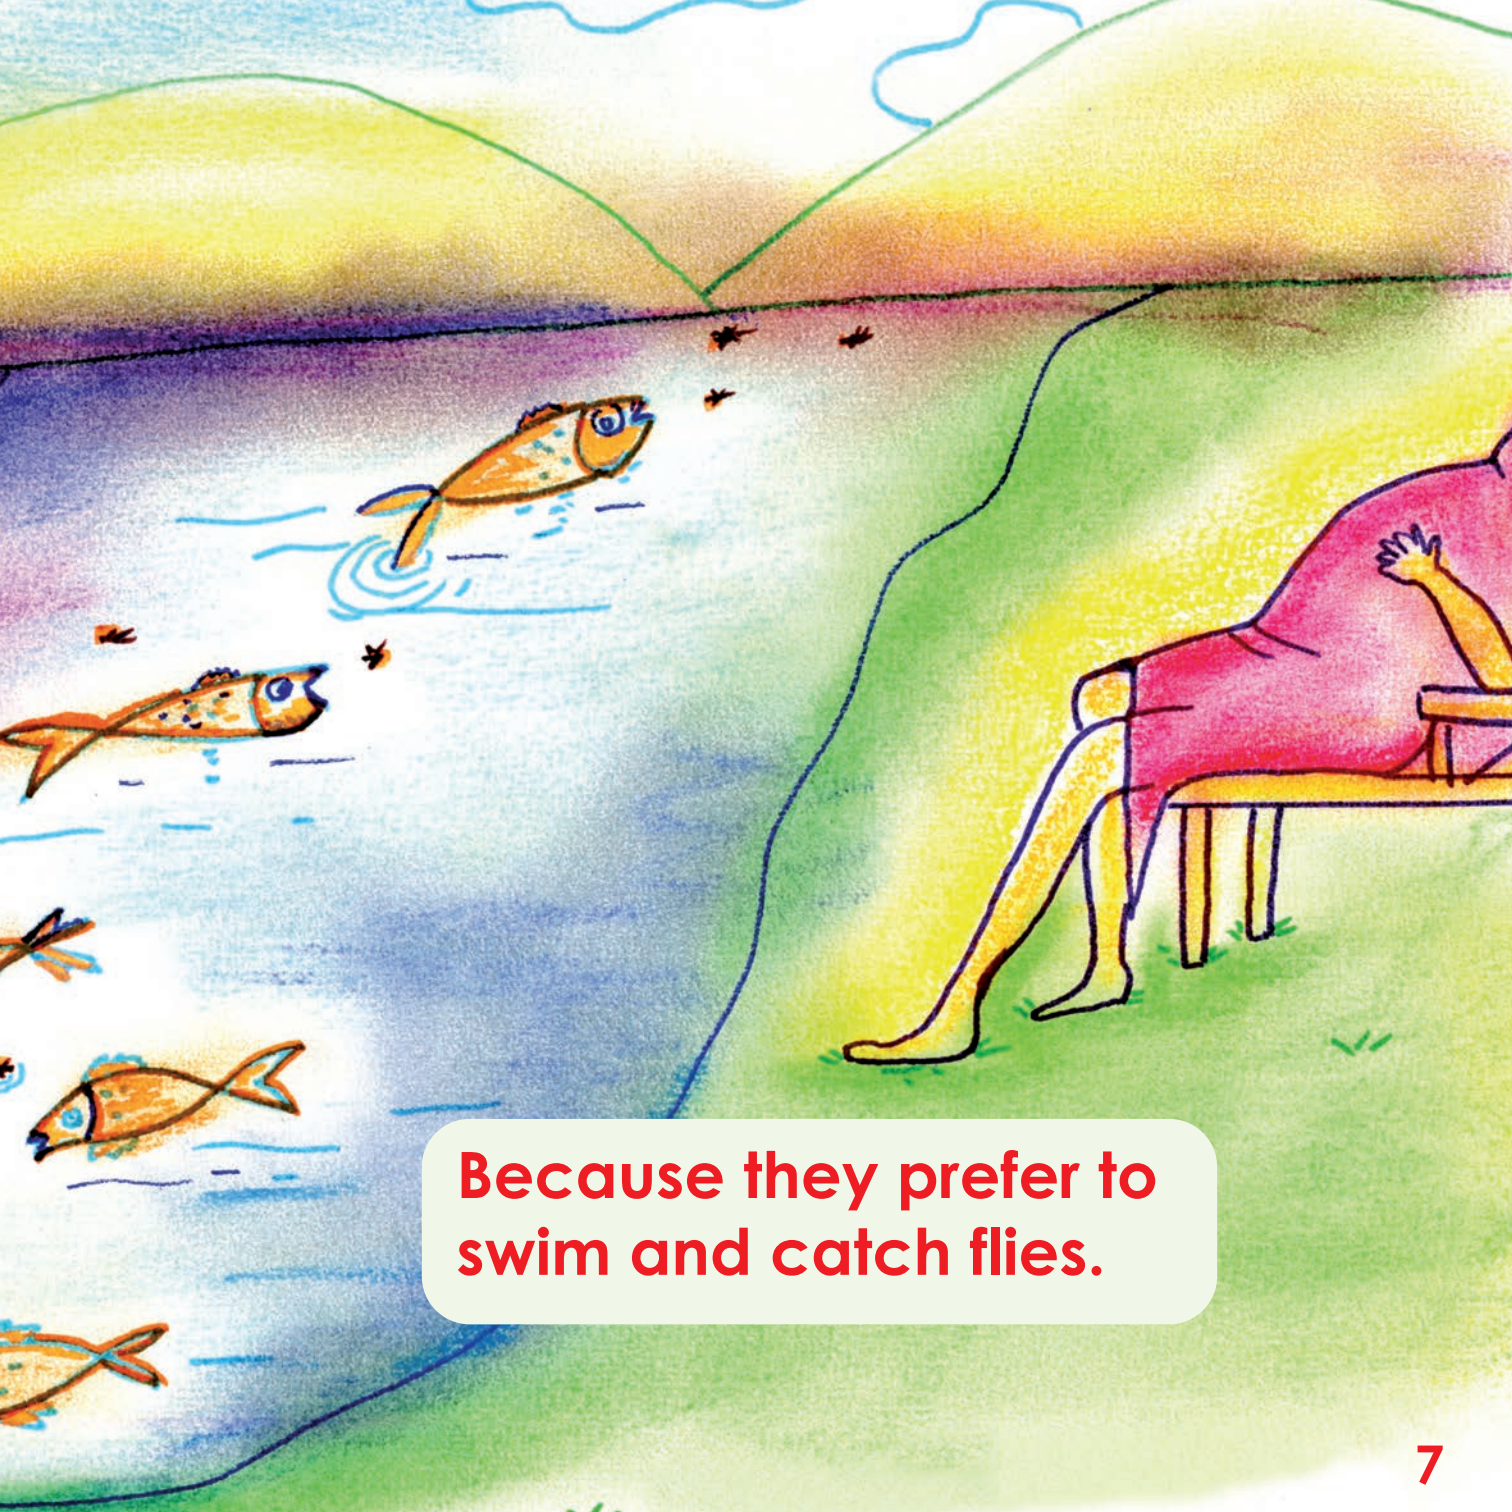
Because they travel around the world.

Tell me Mummy …
why do birds fly?

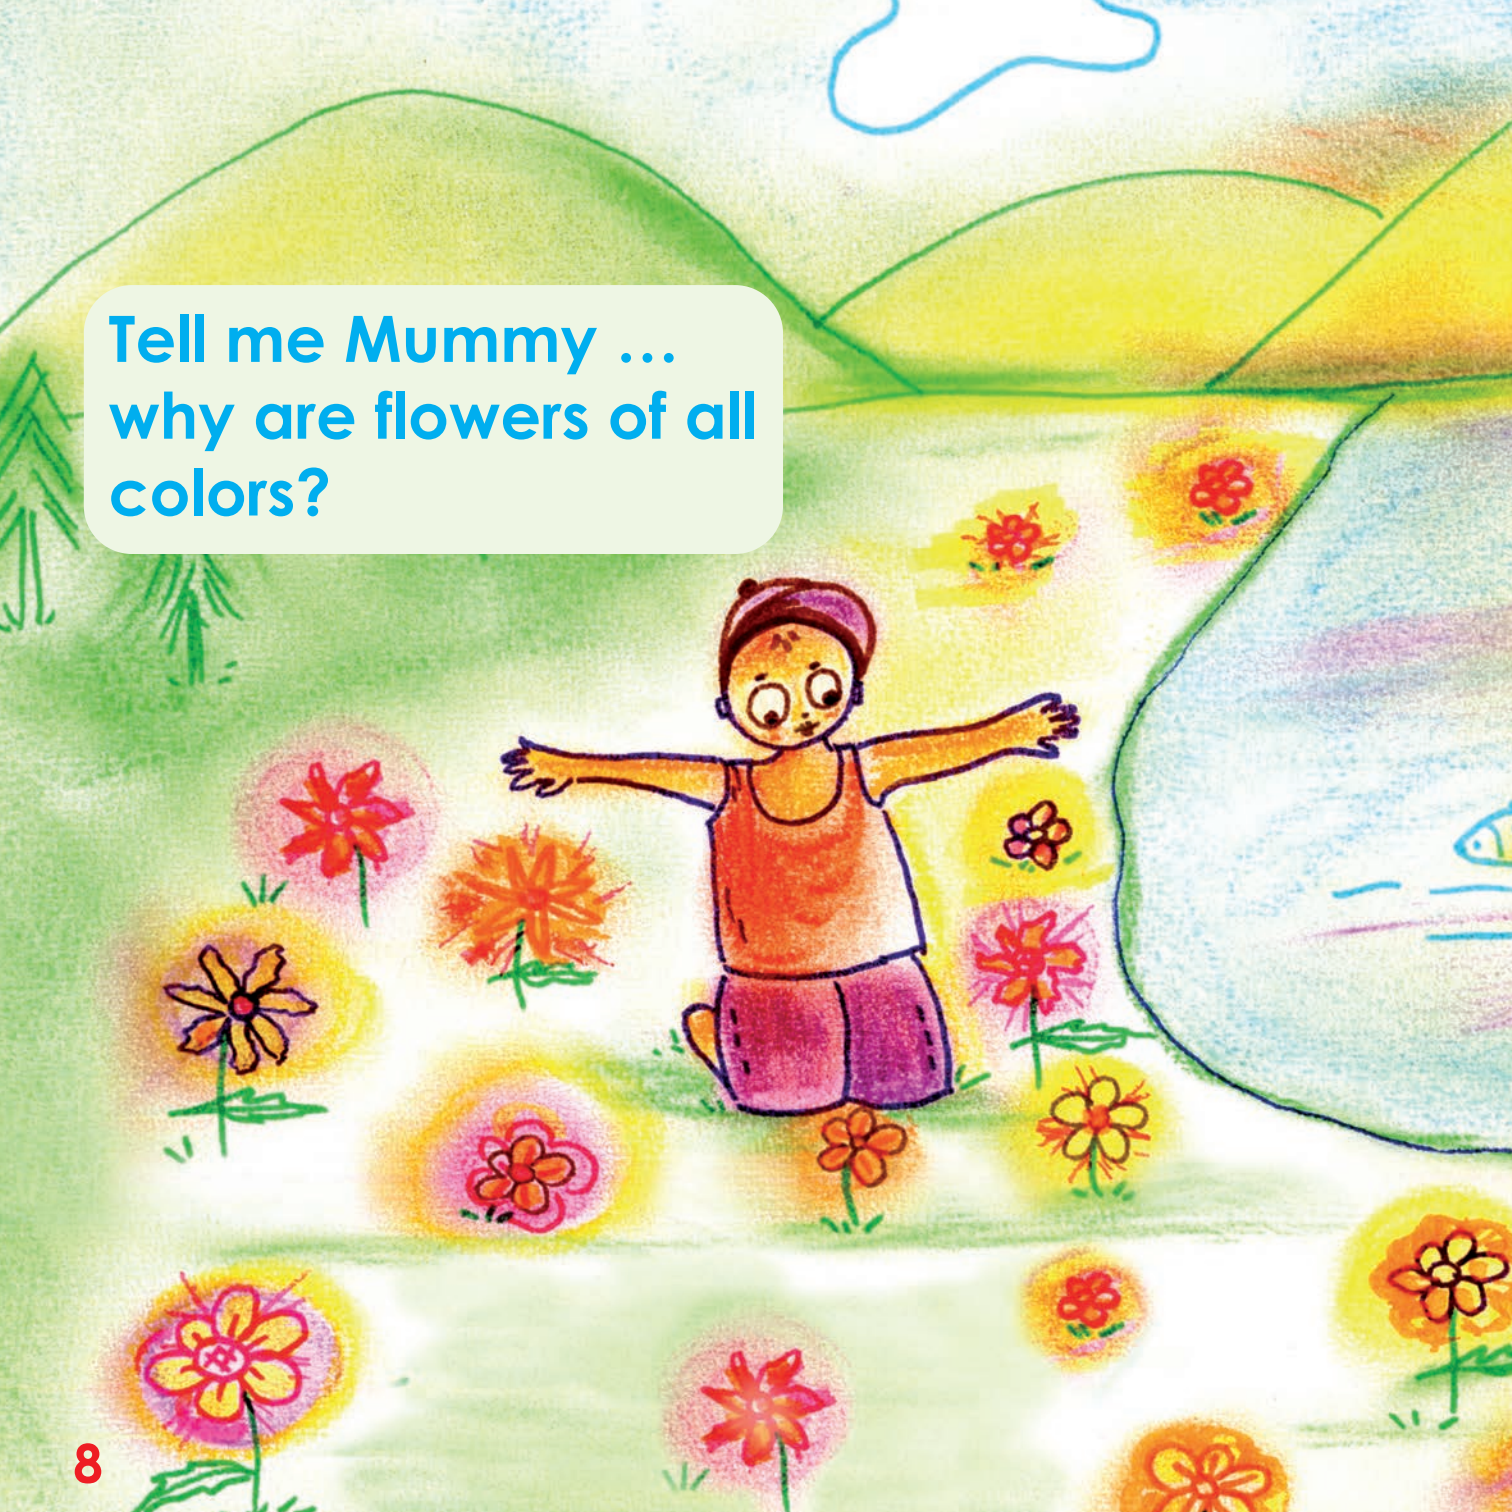
Because they
want to go
with the clouds.



Tell me Mummy ...
what about fishes,
why do they stay
in water?



Because they prefer to swim and catch flies.

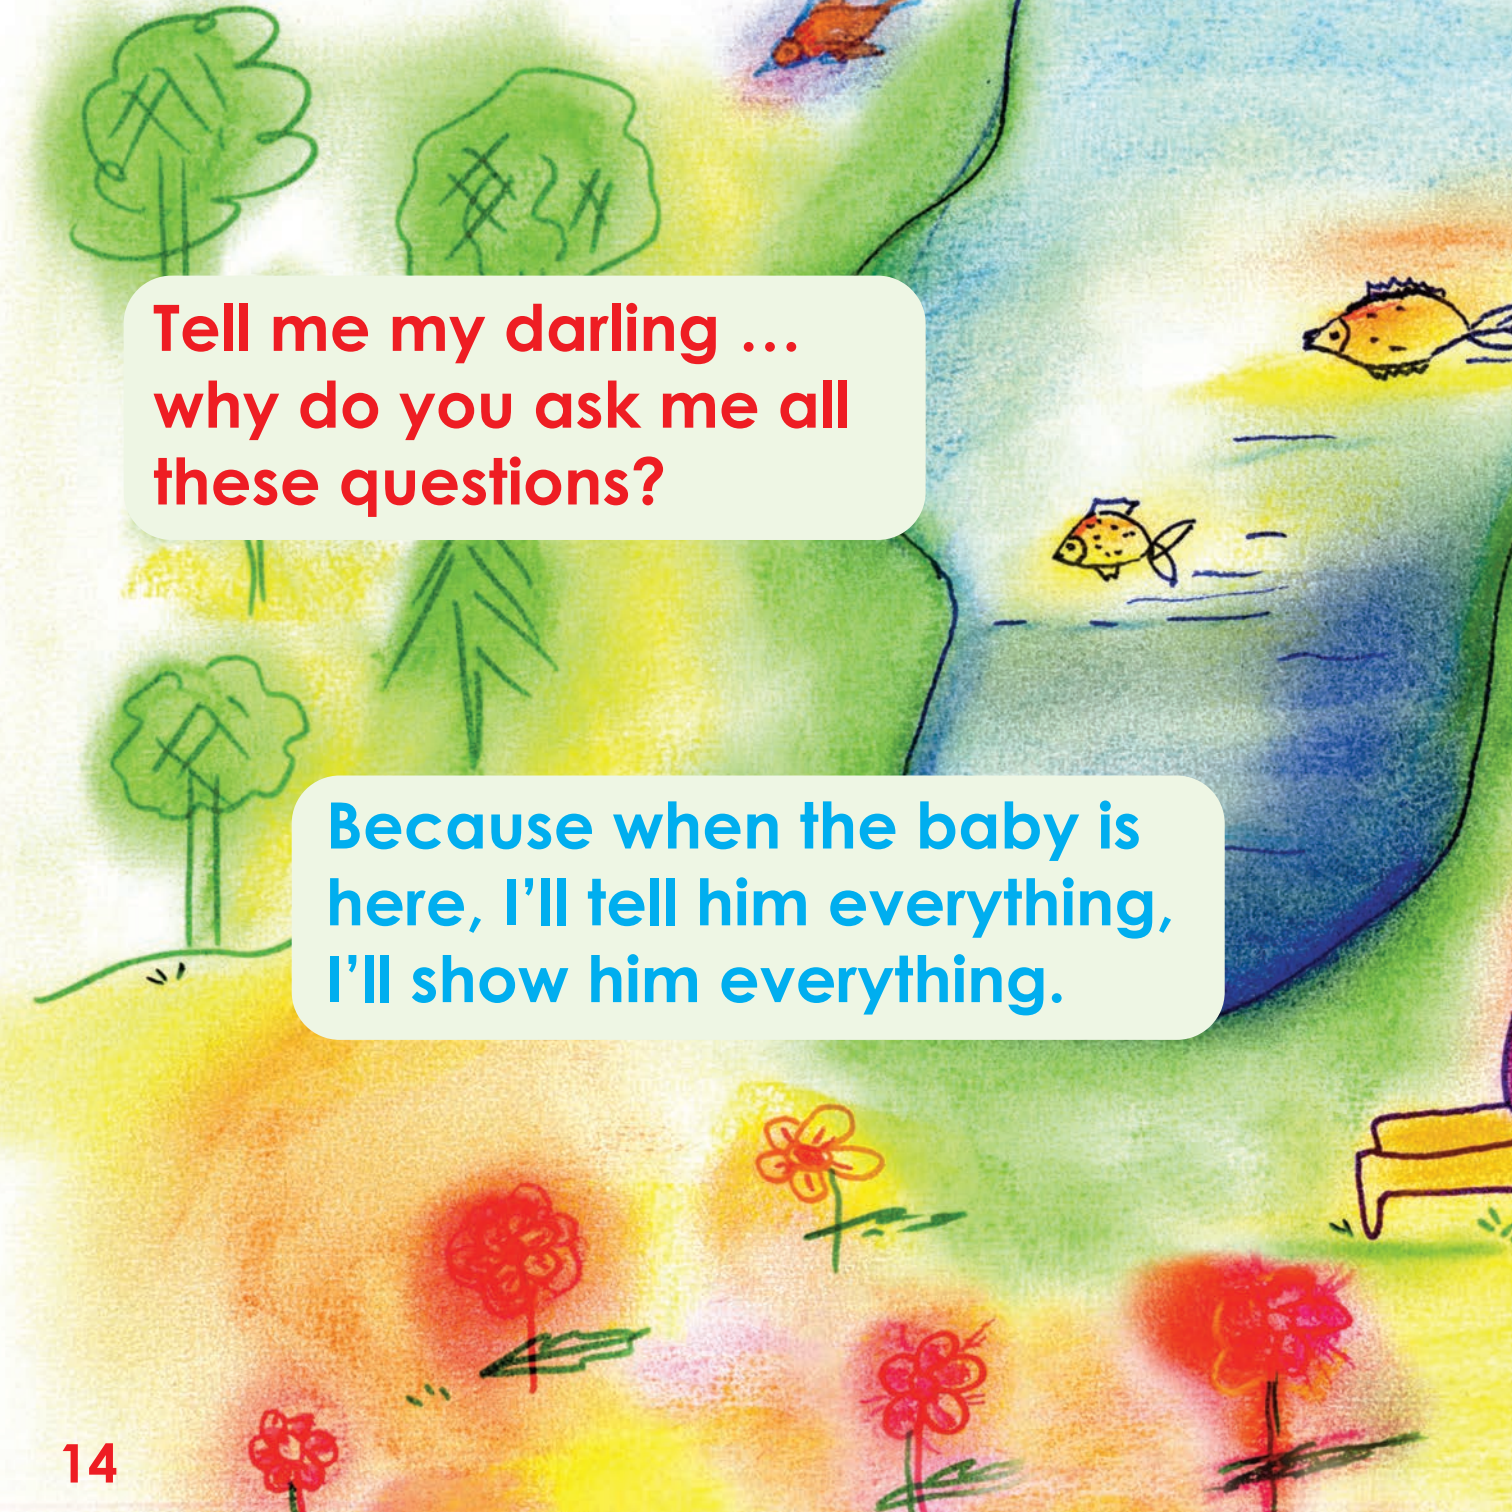


Tell me Mummy ...
why are flowers of all
colors?

So that you find them beautiful and admire them.

Tell me Mummy ...
what about the baby,
does he see all that?

No,
but he soon will.



Tell me my darling … why do you ask me all these questions?
Because when the baby is here, I'll tell him everything, I'll show him everything.
